ACADEMIC PROJECTS

Fintech and Asset Management

2024

University of Piraeus

- Examined the development of fintech and its impact on financial services, with emphasis on robo-advisory, digital payments, blockchain, APIs, AI, and neobanks.
- Analysed fintech applications in asset management, including automated investment services and technology-driven changes in portfolio and advisory models.

Financial System and Banking Analysis using FRED Data

2023

University of Piraeus

- Produced an analytical assignment using macro-financial and market indicators, including money supply, CPI, equity market indices, Treasury rates, and credit spreads.
- Interpreted relationships between financial conditions, inflation, liquidity, market stress, and risk premia across different periods.

Behavioural Finance

2024

University of Piraeus

- Explored how behavioural biases and market psychology influence pricing, volatility, and investor decision-making in financial markets.
- Applied behavioural finance concepts to market events and commodity-price dynamics, linking investor behaviour to broader financial outcomes.

VOLUNTEER EXPERIENCE & LEADERSHIP

Military service reinforced a strong sense of civic responsibility, leading to an ongoing commitment as a volunteer blood donor since February 2025. From early adolescence through the age of 16, participation in organised summer camps provided a broad foundation in adaptability, teamwork, and interpersonal skills — encompassing activities ranging from painting, crafts, and archery to football, basketball, swimming, cycling, and hiking. During military service, these organisational and interpersonal competencies were actively applied in daily interactions with officers across different ranks and fellow service members, deepening an understanding of public-sector structure and administrative responsibility.

HOBBIES & INTERESTS

Holds a black belt in Tae Kwon Do and has maintained active involvement in sports including basketball, football, and swimming over many years. In childhood, was a member of the Patras Arts Workshop, participating in clay sculpture, shadow theatre creation, and drawing. Plays classical guitar and is currently developing proficiency in electric guitar. Recently completed an open-sea sailing programme and obtained the corresponding licence.
